

EVOLVE ORGANIC BEAUTY

RAINFOREST RESCUE BLEMISH SERUM

With Willow Bark, Acai & Copaiba

For oily and combination skin

30ML RRP £22 10ml £9

Available February 2018

This natural yet powerful skin treatment can be used on blemish prone and congested skin at any age as well as oily and combination skin.

Our Amazonian blend of Acai and Copaiba is proven to decrease sebum production and reduce the appearance of blemishes and open pores, leaving skin clear, calm and matte. Willow bark, a natural source of salicylic acid, helps to boost cell turnover and exfoliate without irritation, for a smooth and healthy looking complexion.

Directions: Apply gently on clean skin morning and evening.

KEY INGREDIENTS

RAINFOREST BLEND

Rainforest blend is a 100% natural anti-acne blend made up of Andiroba, Acai and Copaiba to help deal with oily and combination skin. In clinical trials, our blend has shown some impressive results: 42% blemish reduction and 72% reduction in the number of comedones after 8 weeks, as well as reduction of sebum production of 65% after 6 weeks. The synergy between the 3 bioactives makes this blend a perfect ingredient to improve the health of oily and blemish-prone skin.

WILLOW BARK

Willow Bark contains non irritating natural Salicylic acid equivalent, and has been shown to possess anti-microbial properties and boost cellular renewal leading to a general improvement in the skin's appearance.

ALOE VERA

Aloe Vera is a commonly used and known plant extract which has shown to have soothing, anti-oxidant properties as well as being hydrating thanks to its polysaccharide content.
